#### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicants' representative, Mr. Thomas Scherer, on July 15, 2004.

The application has been amended as follows: deleting the Abstract and replacing it with the following: --A propagation delay time measuring method of measuring a propagation delay time of a test signal propagating along one of a first signal path and a second signal path serially connecting to the first signal path through which a semiconductor testing apparatus includes a driver and a comparator electrically connected to a device under test.--

2. The following is an examiner's statement of reasons for allowance: regarding claim 1, the primary reason for the allowance of the claim is due to the specific and detail method steps presented in the claims. Since claims 2-7 depend off of claim 1, they are also allowed.

Regarding claim 8, the primary reason for the allowance of the claim is to the specific limitation of having a delay time calculator for calculating a propagation delay time of a second path based on a timing defined as a first reflect signal that is from the driver and reflected at the end of another end of the first path.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

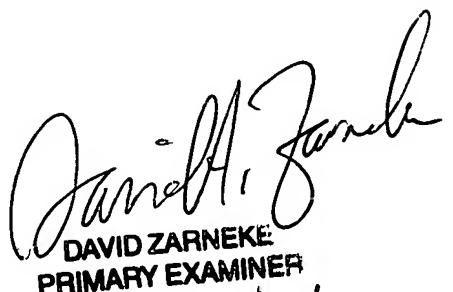

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jermele M. Hollington whose telephone number is (571) 272-1960. The examiner can normally be reached on M-F (9:00-4:30 EST) First Friday Off.
